

Product Catalogue 2015

One life... see it!

Welcome to the Masai® line catalogue.

Through 3 generations of automotive engineering, we've created a range of products to style and enhance any Land Rover Defender. Here at Masai, we believe our products are a perfect example of how a great idea leads to a great product that not only looks good, but performs to high standards.

Make it your own

The Land Rover Defender is an icon in British automotive history, and it is also one of the most flexible off-road vehicles ever built. From panoramic glass windows to rugged, utilitarian bumpers, you're sure to find the perfect product for your Land Rover Defender.

A name you can trust

You can buy directly from us - a manufacturer with a long pedigree of European automotive experience - or through our reliable distributors.

Panoramics

Beautiful. Minimalist. Durable. Whether you are looking to update your old Land Rover windows or convert your panel van workhorse into a family vehicle, our striking and exclusively designed panoramic windows are the easy choice. With 70% no light transmission dark privacy tint, which appears as grey with a hint of green, our panoramic windows provide greater levels of privacy and a markedly reduced glare – discreet and practical.

Rear panoramic side windows

Masai Panoramic tinted side windows for 90 and 110

Rear quarter lights

Masai Panoramic tinted rear quarter light windows

Rear door glass

Masai tinted, heated rear door glass

Side windows

Masai tinted side windows

Rear door side windows

Masai tinted rear door side windows for 110 and 130

Nene Overland's Defender Icon fitted with Masai panoramic windows. Discover more about this vehicle at www.neneoverland.co.uk

Tinted

Get the executive look. Improve the appearance, value, privacy and security of your Land Rover Defender and achieve that iconic look in an instant. Our premium tinted window range features a heat reflective, glare reducing coating over a premium factory tint, ideal for expeditions in temperate climates, and the high-quality fleck runners ensure a pleasant driving experience with no rattles, draughts or leaks.

Rear tinted side windows

- High-quality fleck runners
- 4mm E43R toughened (tempered) safety glass

Application	Item Number
90, 110	SKU MZepp FIXED

Our Trademark Windows

We don't only design our range of tinted windows to enhance the look of your Defender – we also manufacture them with premium quality materials. We prepare our windows with a 70% no-light transmission factory tint, not a stick-on film, and only use E43R toughened, tempered safety glass. Coupled with our own high-quality fleck runners, all of our windows are guaranteed to be silent, rigid, leakproof and draft free.

Side and rear windows

Dark tinted side windows for 90 and 110

We manufacture our side windows to original Land Rover quality using original shape Land Rover aluminium profile and locks/catches. These factory tinted windows are available in fixed, sliding or double-sliding configurations. Double-sliding shown above. Suitable for TD5, 300 Tdi and 200 Tdi internal trims.

- 70% no-light transmission factory tint - not a stick-on film
- High-quality fleck runners
- 4mm E43R toughened (tempered) safety glass

- Fitting service available

Application	Item Number
110	SKU LR-SDG

Masai tinted front door windows for 90 and 110

The perfect finishing touch for a set of Masai's Tinted, Panoramic or Zeppelin windows.

Our branded front door glass features a factory 15% galaxy grey tint.

- 15% no-light transmission factory tint - not a stick-on film
- Polished edges
- 4mm E43R toughened (tempered) safety glass
- DIY installation in a few hours
- Fitting service available

Application	Item Number
90, 110	SKU ALR4774

Dark tinted rear quarter lights for 90 and 110

Our premium tinted quarter lights are designed to reduce light glare and reflect heat. These windows have been designed as standard size replacements for the Defender 90 and 110, but may fit other models.

- 70% no-light transmission factory tint - not a stick-on film
- 4mm E43R toughened (tempered) safety glass
- DIY installation in a few hours
- Standard size replacement
- Fitting service available

Application	Item Number
90, 110	SKU 00026

Masai tinted heated rear door glass for 90 and 110

Our tinted heated rear door glass features a heat reflective, glare reducing coating over a premium factory tint, ideal for expeditions in temperate climates.

- Standard size replacement
- 70% no-light transmission factory tint - not a stick-on film
- 5mm E43R toughened (tempered) safety glass
- DIY installation in a few hours - full fitting kit provided.

Side window guards

- Will fit all defenders with factory fitted windows
- Sold as a pair
- Precision laser cut steel
- Zinc plated and powder coated in black
- Includes suitable rivets
- Easy DIY fitting

Application	Item Number
County side window	SKU M-SWG01

Blind spot windows

Masai slide-opening tinted blind spot windows for 90 and 110

Our tinted blind Spot windows are designed for panel-sided Defenders to provide the driver with extra visibility where it counts. They will also fit most flat-sided vans or trucks.

These windows are guaranteed to be both leak and draft proof, and feature a heat reflective and glare reducing tint.

- 70% no-light transmission factory tint - not a stick-on film
- 4mm E43R toughened (tempered) safety glass
- DIY installation in a few hours - full fitting kit provided
- Fitting service available

Application	Item Number
90, 110	SKU SO-BSW

Masai fixed tinted blind spot windows for 90 and 110

Our tinted blind Spot windows remove blind spots and provide extra visibility and light to panel-sided Defenders without compromising security. They will also fit most flat-sided vans or trucks. Unlike our slide-opening blind spot windows, these windows have no external frame, only polished edges.

- 70% no-light transmission factory tint - not a stick-on film
- 4mm E43R toughened (tempered) safety glass
- DIY installation in a few hours - sealant can be provided
- Fitting service available

Application	Item Number
90, 110	SKU LRD-BSW

Windscreens

Masai Defender heated windscreen

- Standard size replacement
- Heated glass
- Manufactured to original Land Rover quality
- DIY installation in a few hours
- Leak, draft and rattle free
- Fits all models from 1985 onwards
- E43R toughened safety glass

Application	Item Number
Defender 1985+	SKU M-LR042760

Masai Defender windscreen seal

A standard size replacement for Land Rover Defender windscreen seals.

- Manufactured to original Land Rover quality
- DIY installation in just a few hours
- Leak and draft free
- Fits all models 1985 onwards

Application	Item Number
Defender 1985+	MTC 5753

Camping windows and hatches

Masai dark tinted camper style side window

Our camper style windows suit a variety of uses where increased access, light and ventilation is needed but not at the expense of security. This is a Land Rover Defender "standard size" side window - use as replacement or as a hard-top conversion. However, we do also supply a smaller 810mm x 477mm window, ideal for 110 vehicles (shown in the right hand image).

The gas strut brackets can be unscrewed from the frame, allowing the windows to be fully opened.

Though our camper windows were originally designed for use on the side of a Land Rover, they can fit a multitude of vehicles and serve a number of different purposes—from truck sleeping pods to narrow boat deck hatches.

Application	Item Number
90, 110	SKU DEF1107X477

- Sold as single windows
- Includes two gas struts for smooth opening and closing
- Three handle locking with keys
- Measurements: Standard size is 1107mm x 477mm external, smaller size is 810mm x 477mm
- The standard size internal area is 1017mm x 387mm, smaller size is 720mm x 387mm
- Black powder-coat painted aluminium frame
- Includes rubber seal and internal bezel
- E43 5mm toughened safety glass
- 70% No-Light transmission Dark Tint
- Factory prepared tint - not a stuck on film

Size	Item Number
Standard	SKU DEF1107x477
Small	SKU DEF810x477

Wide opening vent/shooting hatch

If you need increased light, ventilation and accessibility, but not at the cost of security, install Masai's wide opening vent/shooting hatch.

- 4mm E43R toughened (tempered) safety glass
- Dark no-light transmission tint to reduce glare
- Dual handle locking with keys
- Includes rubber seal and internal bezel
- Will fit anything with a flat surface
- Measures 810mm x 600mm externally

Application	Item Number
All	SKU DEF-810X600

Miscellany

Roof racks

Masai roof rack for 90 and 110

Our Land Rover roof racks are manufactured in three lengths: 1.5m, 2.15m and 2.8m. Zinc plating and thermoplastic powder coat paint ensure long life rust protection. Masai Defender roof racks are easy to assemble using supplied fitting instructions.

- The 1.5m also fits the Discovery 1 and 2
- Made of zinc plated steel
- The frame rail is 120mm high and 1370mm wide
- Overall height including brackets from the gutter line is 360mm

This particular rack is not suitable for folding roof tents as the side rail is too high

Size	Item Number

Flat roof rack for 90 and 110

The Masai flat roof rack – available in 1.5m, 2.15m and 2.8m – is suitable for folding roof tents.

- Suitable for folding tents
- Made of zinc plated steel
- The 1.5m also fits Discovery 1 and 2
- The 2.8m is only suitable for Land Rover Defender 110
- The frame rail is 45mm high, and 1370mm wide
- Overall height including brackets from the gutter line is 285mm

Size	Item Number
1.5m	SKU FRR-01-1.5
2.15m	SKU FRR-01-2.15
2.8m	SKU FRR-01-2.8

Masai silver roof rack for 90 and 110

Our silver Land Rover roof racks are manufactured in three lengths: 1.5m, 2.154m and 2.8m. We manufacture two variants of this roof rack. One features a flat front with a full panel and the other is open with sloped ends. Both are shown in the pictures above.

- The 1.5m also fits the Discovery 1 and 2
- Made of zinc plated steel
- The frame rail is 120mm high and 1370mm wide
- Overall height including brackets from the gutter line is 360mm

Size	Flat, closed	Sloped, open
1.5m	SKU MRR01-1.5

Tubular roof rack for 90 and 110

New for 2014, our tubular roof rack is made from high quality tubular steel and zinc plated for rust protection. Available in 2.15m or 2.8m.

- Made of zinc plated steel
- Overall height including brackets from the gutter line is 300mm
- The 2.8m is only suitable for Land Rover Defender 110
- We manufacture a special version for 110 crew cab vehicles.

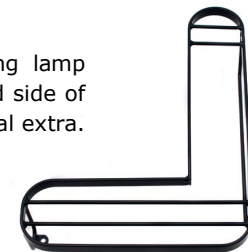

Application	Item Number
90	SKU TRR-90-2.15
110	SKU TRR-110
110 crew cab	

Roof access ladder

- Manufactured from 25 mm diameter high quality steel tubing
- Zinc plated with black powder coat paint, ensuring long term rust protection
- A high-quality product manufactured by Masai
- Fits to existing holes on the chassis, but you will need to drill two holes at the top to secure the ladder to the vehicle

We also sell a matching lamp guard for the right hand side of the vehicle as an optional extra.

Application	Item Number
90, 110	SKU RAL-LRD

Winch bumpers and A-bars

Tubular winch bumper for 90 and 110

We design our winch bumpers to fit as many types of Land Rover Defender and winch as possible. All of our winch bumpers are a zinc plated steel base with thermoplastic powder coated paint for durability and life long rust protection.

- Fits most winches
- Fits Land Rover Defender 90 and 110
- Zinc plated steel base
- Thermoplastic powder coated paint for durability
- Easy to repaint
- The holes for fitting a winch are 12mm x 260mm apart

Front Plate Colour	Item Number
Orange	SKU 00039-ORANGE

Nudge bar (A-bar/A-frame) for off-roading

Our tubular steel nudge bar (A-bar/A-frame) for off-roading use.

- Suitable for Land Rover Defender 90 and 110 models without air conditioning
- Fits on top of the existing bumper fixing points.
- High quality tubular steel 2.5" (60 mm) diameter.
- Zinc plated for rust free life and black powder coated for final finish.
- Dimensions are 850 x 590 x 140mm

Version	Item Number
Air-con	SKU 00037
No air-con	SKU 00037

Winch bumper with LED lights

Our steel winch bumper features pre-cut fittings for our LED light range, featured at the back of this catalogue.

- Suitable for Land Rover Defender 90 and 110 models
- Fits on top of the existing bumper fixing points
- Features LED light fittings
- High quality steel
- Zinc plated for rust free life and black powder coated for final finish.
- Two versions available for vehicles with and without air-con

Version	Item Number
Air-con	SKU Mas-WB-LED-65
No air-con	SKU Mas-WB-LED-65

Snorkels and air intakes

Bumper light bar

Our tubular steel light bar designed to fit on most Land Rover Defender bumpers. Ideal for our winch bumper with LED lights.

- Suitable for Land Rover Defender vehicles with or without air conditioning
- Fits on top of the existing bumper fixing points
- Zinc plated for rust free life and black powder coated for final finish.
- Light bar includes fixing points for two lights

Application	Item Number
90, 110	SKU Mas-BLB

Snorkel kit for 90 and 110

A snorkel, also known as a raised air intake, protects engines from the damaging effects of water, dust and sand encountered in touring and off-roading.

- Cyclonic pre-cleaner - Integrated fins create a pre-cleaning centrifugal effect to reduce the intake of sand/dust particles.
- 70mm diameter tube
- Zinc plated steel tube and mushroom top painted in gloss black
- Complete with fitting kit
- Paint service available
- We also manufacture a special variant of this snorkel to fit vehicles with roll cages

Application	Item Number
200TDI	SKU STC50265-200TDI
300TDI/TD5/TDCI PUMA	SKU LRS-300

Air intake cover for Land Rover Defender

An air intake cover protects against heavy rain, snow and dust.

- Standard sized fitting
- Made of fibreglass
- Easy DIY fitting—just a few screws!

Application	Item Number
90, 110	SKU AIC-01

Guards

Steering and sump guard for Land Rover Defender (6mm thick steel)

A steering and sump guard protects from rock, tree, root and stump damage. Our steering and sump guard is designed to fit standard Land Rover Defenders. Made from heavy duty 6mm thick mild steel with zinc plating, the Masai steering and sump guard is built to last.

Shackles with pins (to go in the towing eyelets) are optional extras. We supply our steering and sump guard in a resplendent zinc finish, but it can easily be painted prior to fitting. We also offer an optional high quality colour matching paint service.

- Fits all standard Land Rover Defenders, 90, 110 and 130.
- Heavy duty 6mm thick mild steel with zinc plating
- Very easy to fit, it bolts onto the chassis
- The kit includes nuts, bolts and washers fitting kit (stainless steel)

Type	Item Number
No paint, no shackles	SKU LRD-SG
Paint	SKU LRD-SG+P
Shackles	SKU LRD-SG+S
Paint and shackles	SKU LRD-SG+P+S

Heavy duty differential guard for Land Rover axles (5mm thick)

Our versatile Land Rover differential guard, designed to protect the vehicle's differential from harm, fits all standard Land Rover axles front or rear – all Defenders 90, 110, 130, series II/III, Discovery and Range Rover Classic.

- Fits all standard Land Rover axles front or rear - all Defenders 90, 110, 130, series II/III, Discovery, Range Rover Classic.
- Heavy duty 5mm thick high tensile carbon steel with high quality zinc galvanised plating
- High strength construction with superior clean welding laser-cut
- Very easy to fit without any drilling
- Includes two 8 mm x 70 mm cylindrical Allen key bolts with heavy gauge zinc plating and two self-locking nuts with nylon inserts.

Application	Item Number
90, 110, 130, series II/III, Discovery, Range Rover Classic.	SKU OM121Z

Lighting

A collection of various LED and HID vehicle lights, including a large circular light with six LEDs, a cylindrical spotlight, a small round yellow light, a rectangular light with two LEDs, a square light with a lens, and a large rectangular light with six LEDs.

A wide range of LED and HID lights from a long-established UK company

There's been a growing demand over recent years for vehicle lighting which consumes less power and is far longer lasting than conventional filament bulbs. LED lights very much meet that need, and for the same power consumption will produce greater luminosity and a whiter light. Recognising that, we have sourced high-quality LED and HID vehicle lights from around the world and will be bringing further ranges over the coming years.

LED and HID lights

We have a wide range of LED and HID vehicle lights in various wattages, designs and sizes—IP65 and IP67 compliant. We supply and manufacture headlights, work lights, light bars, brake lights and even LED side light kits specifically for Land Rover Defenders.

LED work and driving lights

18 Watts 6" light bar, 6 Epistar LEDs

- Can adjust vertical angle 120 degrees, and full rotation
- Power: 18 Watts, Epistar LEDs are 3W each
- Operating Volts: 10-30v DC
- Beam: Flood beam
- Lumens output: Approx. 1,350 lumens
- Colour temperature: 6,000K
- Waterproof spec: IP67
- Die cast aluminium housing, stainless steel bracket
- Approx. 20,000 hours life time
- ROHS compliance (2011/65/EU)
-

Application	Item Number
All	SKU 6-REC-6-LED-WL-FB-18W-6183

18 Watts rectangular work lamp, flood beam, 6 Epistar LEDs

- Can adjust angles
- Width: 4.3 inches
- Size: 110 x 60 x 55mm (excluding bracket)
- Power: Total 18 Watts, Epistar LEDs are 3W each
- Operating Volts: 10-30v DC
- Lumens output: Approx. 1,350 lumens
- Colour temperature: 6,000K
- Waterproof spec: IP67
- Material: die cast aluminium housing, stainless steel bracket
- ROHS compliance (2011/65/EU)

Application	Item Number
All	SKU RLEDWL-6182

18 Watts 4" round work light, 6 Epistar LEDs

- Can adjust vertical angle and full rotation
- Power: 18 Watts, Epistar LEDs are 3W each
- Operating Volts: 10-30v DC
- Beam: Flood beam
- Lumens output: Approx. 1,800 lumens
- Colour temperature: 6,000K
- Waterproof spec: IP67
- Material: die cast aluminium housing, stainless steel bracket
- Approx. 30,000 hours life time
- ROHS compliance (2011/65/EU)

Application	Item Number
All	SKU 4-ROU-6-LED-WL-18W

18 Watts 6" rectangular work light, 6 Epistar LEDs, flood beam

- Can adjust vertical angle and full rotation
- Power: 18 Watts, Epistar LEDs are 3W each
- Lumens output: Approx. 1350 lumens
- Operating Volts: 10-30v DC
- Size: 150mm x 60mm x 100mm
- Beam: Flood beam
- Lens: Polycarbonate
- Waterproof spec: IP67
- Material: die cast aluminium housing, stainless steel bracket
- Approx. 30,000 hours life time
- ROHS compliance (2011/65/EU)

Application	Item Number
All	SKU 6-REC-6-LED-WL-18W

20 Watts 5" rectangular single bar CREE LED vehicle light

- Power: 20 Watts, LEDs are 10W each
- Operating Volts: 10-30v DC
- Lumens output: Approx. 1,800 lumens
- Angle: Can adjust angle
- Size: 115x60x80mm
- Colour temperature: 5k-6k
- Operation temperature -40°C to 60°C
- Waterproof spec: IP67
- Material: die cast aluminium housing, stainless steel bracket
- Housing colour: Black
- Lens: Toughened Glass

Application	Item Number
All	SKU 5-REC-2-LED-SB-20W

24 Watts 4" rectangular work light, 8 Epistar LEDs

- Can adjust vertical angle and full rotation
- Power: 24 Watts, Epistar LEDs are 3W each
- Operating Volts: 10-30v DC
- Beam: Flood beam
- Lumens output: Approx. 1,850 lumens
- Colour temperature: 6,000K
- Waterproof spec: IP67
- Material: die cast aluminium housing, stainless steel bracket
- Lens: PMMA
- Approx. 30,000 hours life time
- ROHS compliance (2011/65/EU)
- Size: 140mm x 55mm x 70mm

Application	Item Number
All	SKU 4-REC-8-LED-WL-24W

24 Watts 7.5" rectangular work light, 24 Epistar LEDs

- Can adjust vertical angle and full rotation
- Power: 24 Watts, Epistar LEDs are 1W each
- Lumens output: Approx. 2900 lumens
- Operating Volts: 10-30v DC
- Size: 200mm x 40mm x 120mm
- Beam: Spot beam
- Lens: PMMA
- Colour temperature: 6,000K

7" ECE LED headlights

Sealed beam LED headlights with dipped beam and main beam modules. Perfect for off-road vehicles, motorcycles, heavy duty trucks, military applications and more. With the appearance of a pure white light, LED headlights run at lower power than Halogen and Xenon alternatives – ensuring up to 50x longer life – and offer the same forward visibility without the harsh glare. Our LED headlights have die cast aluminium housings, polycarbonate lenses and use a 3-Blade connector. Available in left and right hand drive traffic versions.

- ECE and ROHS Compliant
- LED sealed beam technology with Polycarbonate Lens And Sealed Electronics
- Material:
- Hard-coated polycarbonate lens
- eCoat aluminum housing and internal

Structures:

- Metalized reflector » 1.3mm CSA / 16 gauge wire

Light source:

- 2 LED arrays power:
- Multi-volt (9V-33V) design works with both 12V And 24V systems

Headlamp:

- 1.3A (Dipped/Passing) @ 13.2V
- 2.3A (Main/Driving) @ 13.2V
- 0.6A (Dipped/Passing) @ 26.4V
- 1.1A (Main/Driving) @ 26.4V
- Position lamp 0.03A @ 13.2V, 0.03A @ 26.4V »

Additional Specifications:

- Operating temperature: -40°C To 50°C
- Overvoltage protection To 600V

Light bars

CREE 260 Watt 26 LED single row light bar with optical reflector

- Size: 43" wide
- Power: 260w, 10w CREE LEDs
- 20500 Lumens
- Operating voltage: 10-60 Volt DC
- Colour temperature: 5000K, 6500K
- Operation temperature: -40°C~60°C
- Waterproof rate: IP67
- Beam: Spot beam
- Material: Die cast aluminium housing
- Mounting bracket: Aluminium alloy with stainless steel brackets
- Lens: PC

Application	Item Number
All	43-REC-26-LED-VWLB-SPOT-260W

CREE 116 Watt light bar

- Size: 20" wide
- Power: 116w, 10w beside 3w CREE LEDs
- 9000 Lumens
- Operating voltage: 10-30 Volt DC
- Colour temperature: 5000K, 6500K
- Operation temperature: -40°C~60°C
- Waterproof rate: IP67
- Beam: Combo beam
- Material: Die cast aluminium housing
- Mounting bracket: Stainless steel 'L' brackets
- Lens: PC

Application	Item Number
All	20-REC-LED-VWLB-COMBO-116W

CREE 248 and 304 Watt light bar

- Size: 42" wide (50" for 304)
- Power: 248w (204w for 304), 10w beside 3w CREE LEDs
- 20000 Lumens (24000 for 304)
- Operating voltage: 10-30 Volt DC
- Colour temperature: 5000K, 6500K
- Operation temperature: -40°C~60°C
- Waterproof rate: IP67
- Beam: Combo beam
- Material: Die cast aluminium housing
- Mounting bracket: Stainless steel 'L' brackets
- Lens: PC

Size	Item Number
248	42-REC-LED-VWLB-COMBO-248W
304	50-REC-LED-VWLB-COMBO-304W

Epistar 288 Watt light double row curved light bar

- Size: 50" wide, curved
- Power: 288w, 3w Epistar LEDs
- 23000 Lumens
- Operating voltage: 10-30 Volt DC
- Colour temperature: 5000K, 6500K
- Operation temperature: -40°C~60°C
- Waterproof rate: IP67
- Beam: Spot beam, flood beam
- Material: Die cast aluminium housing
- Mounting bracket: Stainless steel brackets
- Lens: PC

Application	Item Number
All	50-CURV-96-LED-VWLB-COMBO-288W

CREE 80 Watt light double row light bar

- Size: 8" wide
- Power: 80w, 10w CREE LEDs
- 6500 Lumens
- Operating voltage: 10-30 Volt DC
- Colour temperature: 5000K, 6500K
- Operation temperature: -40°C~60°C
- Waterproof rate: IP67
- Beam: Spot beam
- Material: Die cast aluminium housing
- Mounting bracket: Stainless steel brackets
- Lens: PC

Application	Item Number
All	8-REC-8-LED-VWLB-80W

A-frame light bar

Our a-frame light bar is designed to fit on our tubular steel nudge bar (A-bar/ A-frame) (See page 29).

- Size: 542*85*80mm(21.5")
- Power: 40pcs x 3w high intensity Epistar LED
- 6800 Lumens
- Amps:10A (12V) /5A (24V)
- Colour temperature: 5000K, 6500K
- Operation temperature: -40°C~60°C
- Waterproof rate: IP67

Application	Item Number
All	

LED vehicle work light bar - 40 LEDs - flood beam, 22", 120w, IP65

- Size: 22" wide
- Power: 120w, 40 LEDs 3w each, high intensity Epistar
- Waterproof: IP65 compliance
- Beam: Flood Beam, 60 degrees
- Lifespan: Approx 20,000 operating hours
- Operating volts: 10-30v DC
- Current draw: 10A at 12v, 4A at 24v
- Lumens output: Approx 7,500 lumens
- Colour Temperature: 6,000K
- Material: Diecast aluminium housing and brackets

Colour	Item Number
Red	SKU 40-LED-VWLB

LED vehicle work light bar - 48 LEDs - flood beam, 40", 144w, IP67

- Size: 40" wide
- Power: 144w, 48 LEDs 3w each, high intensity Epistar
- Waterproof : IP67 compliance
- Beam: Flood Beam, 60 degrees
- Lifespan: Approx. 30,000 operating hours
- Operating volts: 10-30v DC
- Lumens output: Approx. 8,000 lumens
- Colour Temperature: 6,000K
- Material: Diecast aluminium housing, black powder coat paint
- ROHS compliance (2011/65/EU)

Application	Item Number
All	SKU 48-LED-VWLB

Roof light bar for 90 and 110

- Lights not included
- Suitable for Land Rover Defender 90 and 110
- Made of zinc plated steel and painted with black powder coat
- Easy DIY fitting

Application	Item Number
All	SKU MLR-LB-01

Brake, indicator and side lights

NAS style LED lights kit for Land Rover Defender

Our NAS style LED lights kit includes:

- 2 front sidelights
- 2 front indicator lights
- 2 rear indicator lights
- 2 rear tail/brake lights
- 1 rear reversing light
- 1 rear fog light
- 1 speed adjustable flasher relay
- 10 base plinths
- Screws

Optional coloured lenses available (the LEDs inside will be the correct legal colours)

Lamp guards

New style Masai Land Rover Defender front lamp guards

Our new front lamp guards for Land Rover Defender 90 and 110 are manufactured to the highest standards, with zinc plating and black thermoplastic powder coated paint for long life rust protection. They are full size to cover the whole of the lamp surrounds. Land Rover lamp guards are supplied in pairs, complete with fitting instructions.

- Zinc plating for long life rust protection
- Black thermoplastic powder coated paint
- Supplied as a pair
- Easy DIY fitting

Application	Item Number
90, 110	SKU M-FLG-NEW

Hinged Land Rover Defender front lamp guards

These lamp guards have a hinged design for convenience and bulb access.

- Zinc plating for long life rust protection
- Black thermoplastic powder coated paint
- Supplied as a pair
- Hinged design for convenience and bulb access
- Full size to cover the whole of the lamp surrounds

Application	Item Number
90, 110	SKU OM8969

Land Rover Defender rear lamp guards

- Easy Zinc plating for long life rust protection
- Black thermoplastic powder coated paint
- Boxed, complete with fitting instructions
- Supplied as a pair
- Hinged design for convenience and bulb access
- Full size to cover whole of lamp surrounds

The left hand bracket can be substituted for our rear access ladder, found on page 27.

Application	Item Number
90, 110	SKU OM8859

Work lights and torches

NAS light guards

- Rugged plastic construction
- Designed specifically for our NAS style LED lights, found on page 43
- Sold individually. Screws provided

Application	Item Number
90, 110	

50 Watts HID 3500 Lumens aluminium flashlight

- Power: 50w, Xenon HID
- High and low settings: 50w/38w
- 3500 Lumens
- Can be recharged via cigarette lighter or mains socket
- Ballast input voltage 9-16v DC
- Lithium battery
- Carry belt
- Aluminium housing
- Size: 383mm x 80mm x 50mm
- Storage case size: 420mm x 200mm x 115mm
- Beam: Spot beam
- Continuous illumination time: High, 70mins; Low, 90mins

Application	Item Number
All	SKU3-HID-FLASH-38-50W

55 Watt 9" portable HID Xenon spotlight with handle

- Power: 55 Watts or 35 Watts via switch
- Bulb: Xenon HID, H1 bulb
- Operating Volts: 12v DC
- Powered via cable and connector to cigar lighter socket
- Lens: V Shaped PMMA Lens
- Housing: Hi-impact Nylon
- Wiring: powered from cigarette lighter socket.
- Beam: Spot beam
- Colour temperature: 6,000K
- Operation temperature -10°C to 60°C
- Harsh Environment spec: IP67, Water Proof, Dust Proof

Application	Item Number
All	SKU 9-HID-PL-55W

55 Watt 8" HID Xenon torch

- Power: 55 Watts
- Bulb: HID H3
- High and Low settings: 55w/35w
- Brightness: 20m Cd/m2
- Rechargeable battery is 12v, 2.5Ah
- Housing: High impact nylon
- Beam: Spot beam
- Working Temperature : -10 to +60 degrees C
- Harsh Environment spec: IP66
- Includes shoulder strap
- Handle can be flipped up for alternative handling

Application	Item Number
All	SKU HID-Torch-55W

18 Watts magnetic base LED work lamp, 4", flood beam

- Base: Magnetic base
- Cable: 3m cable (included) plugs into a cigarette lighter socket
- Beam: 60° Flood beam
- Power: total of only 18 Watts, LEDs are 3W
- Operating Volts: 10-30v DC
- Lumens output: Approx. 1,350 lumens
- Colour temperature: 6,000K
- Waterproof spec: IP67
- ROHS compliance (2011/65/EU)
- Approx 30,000 hours life time
- Size: 116mm x 43mm x 135mm

Left and right side	SKU STC8355/ STC8354

Wheel spacers

Wheel spacers are designed to adjust the offset of your wheels to prevent the tyres rubbing against the suspension or shock absorbers, and improve the turning circle of the vehicle. Masai's 30mm wheel spacers are made from cast iron and aluminium. Easy DIY fitting with a full complement of nuts and bolts included in the kit.

Application	Item Number
All	

Rear door strip light

Designed to fit on the rear door of a Defender County or panel van, our low power consumption LED strip light provides illumination for the rear vehicle without the need for cumbersome work lights, making hitching and towing in low light easier. These LED lights are water and dust resistant, and have an internal on/off switch. Though ideal for the rear door of a Defender, they are suitable for use in any vehicle or building. Each light measures 400mm long and operates at 12v, providing 220 lumens with 18 LEDs.

- 400mm 12v or 24v, 220 lumens with 18 LEDs, 0.4amps
- Ideal for the rear door of any Land Rover Series or Defender
- Can be applied anywhere
- Water and dust resistant
- Internal on/off switch

Application	Item Number
All	SKU INT-LED-STRIP-400
