Masai 3 Piece Winch Bumper Fitting Instructions

Thank you for purchasing our Masai 3 piece winch bumper for your Defender. Please read these instructions carefully. If you do not feel confident to fit the bumper yourself, we also provide a fitting service - just call for a quote.

The photo on page 3 shows all the components of the 3 piece bumper. Page 4 shows how the bumper looks when fitted. If your Defender is fitted with air-con you must install the extension bracket as shown on p. 3 or the bumper will not fit correctly.
